Objective

To work for an organization as a Full Stack Developer, leveraging technical skills and creativity to drive success and contribute to dynamic team.

Projects

- **Ecommerce App:** Designed and developed a real-time Ecommerce app with separate admin and user panels, featuring authentication, authorization, and integrated payment gateway functionality.
- **Food ordering App:** Developed a feature-rich food ordering app inspired by Zomato, including a dynamic homepage, filter options, menu display, order management, payment processing, and user authentication
- **Video streaming App:** Created a video streaming app with core features including video searching, user authentication, and seamless video playback, offering a user-friendly and engaging media experience similar to Netflix

Certifications

- **Full Stack web development Internship program**
issued by Edureka on 7th oct 2023
- **HTML, CSS & Bootstrap**
issued by Edureka on 7th oct 2023
